

# Supreme Wealth Alliance Ultimate Explained

Hi! I'm **Manny Vloria** (<http://www.vloria.net/swa-pinoy/>), your fellow regular **SWA Ultimate** customer, and here is an explanation of the Supreme Wealth Alliance Ultimate program.

**Do you want to earn an extra income via the internet?**

**Do you want to help pay off your bills?**

**Do you want to finally erase your debt?**

You can do all these with the help of a semi-passive income online. Yes, your own home-based internet business.

And if you're just getting started and still don't have your own product to sell, then check out the **Supreme Wealth Alliance Ultimate** program.

The main product is an Online Library of Ebooks, and when you download and read the PDF files about self-development, motivation, and personal development, and apply what you learn to your life...

...your friends and people around you will notice the change in your outlook as well as the circumstances surrounding your life.

Some of them will ask you what you've done, and when you share your experience with SWA Ultimate, some of the people who inquired about what's going on in your life will be interested enough to subscribe to SWA because of you.

In other words, some of them will become your **Direct Customers**.

And when you are able to attract Direct Customers, you will earn commissions which can be sent to you via Philippine bank deposit, Western Union, or LBC Express.

Here's a table summarizing the commissions you can earn under the two Pay Plans of the Supreme Wealth Alliance Ultimate program

| Direct Customer  | Pay Plan 1 | Pay Plan 2 |
|------------------|------------|------------|
| 1 <sup>st</sup>  |            | \$20       |
| 2 <sup>nd</sup>  |            | Passed up  |
| 3 <sup>rd</sup>  |            | Passed up  |
| 4 <sup>th</sup>  |            | \$20       |
| 5 <sup>th</sup>  |            | \$20       |
| 6 <sup>th</sup>  | \$70       | \$20       |
| 7 <sup>th</sup>  |            | Passed up  |
| 8 <sup>th</sup>  |            | \$20       |
| 9 <sup>th</sup>  |            | \$20       |
| 10 <sup>th</sup> |            | \$20       |
| 11 <sup>th</sup> |            | \$20       |
| 12 <sup>th</sup> | \$90       | \$20       |

**Pay Plan 1** - You will earn a commission of \$70 each time you have a group of 6 people who form under you in a certain way (2 people under you, and then 4 people under those 2 people).

Your Pay Plan 1 commission goes up to \$90 per group of 6 people, after you have 7 Direct Customers.

**Pay Plan 2** - You will earn a commission of \$20 for each of your Direct Customers, except for your 2<sup>nd</sup>, 3<sup>rd</sup>, and 7<sup>th</sup> Direct Customers.

You will pass up your 2<sup>nd</sup>, 3<sup>rd</sup>, and 7<sup>th</sup> Direct Customers to either your upline or to someone above him or her, which means the \$20 per-customer commission also gets passed up.

**This is actually to your advantage. Let me explain...**

When your own Direct Customers (except for your 2<sup>nd</sup>, 3<sup>rd</sup>, and 7<sup>th</sup> Direct Customer) also attract their own direct customers, they will also pass up their 2<sup>nd</sup>, 3<sup>rd</sup>, and 7<sup>th</sup> direct customers to you.

So if you look at your first 7 direct customers, although you will pass up 3 customers in **Pay Plan 2**, you will still be left with 4 direct customers (your 1<sup>st</sup>, 4<sup>th</sup>, 5<sup>th</sup>, and 6<sup>th</sup> direct customers).

And when these 4 people each attract 7 direct customers, each of them will pass up 3 customers to you.

So that's 4 people, multiplied by 3... You will receive 12 passed-up customers.

That's a Passed Up Commission of \$240 (12 x \$20).

**Imagine:** You passed up 3 people, or \$60 worth of **Pay Plan 2** commissions, and here's the potential of earning \$240 thanks to your 1<sup>st</sup>, 4<sup>th</sup>, 5<sup>th</sup>, and 6<sup>th</sup> direct customers who passed up people to you.

Please note that your 2<sup>nd</sup>, 3<sup>rd</sup>, and 7<sup>th</sup> Direct Customers will still form part of your Pay Plan 1 structure. Their placement will help you earn your first \$70 **Pay Plan 1** commission.

Remember those 12 people who were passed up to you?

When those 12 people also attract their own 7 direct customers, they will also pass up their 2<sup>nd</sup>, 3<sup>rd</sup>, and 7<sup>th</sup> direct customers to you.

So that's  $12 \times 3 = 36$  people passed up to you by Passed Up customers.

**Which means your Passed Up Commission will be \$720 (or  $36 \times \$20$ ).**

And yes, those 36 people who were passed up to you courtesy of the amazing **Pay Plan 2** system will also pass up their 2<sup>nd</sup>, 3<sup>rd</sup>, and 7<sup>th</sup> direct customers.

And so on, and so forth...

The lesson here is clear: When you help your Upline by passing up 3 people, that sets a chain reaction.

**Call it goodwill or good karma, if you like.**

Remember, your own SWA Account will pass up only 3 people. This means that starting with your 8<sup>th</sup> direct customer, you will earn a \$20 for every direct customer.

| <b>When your direct customers or those passed up to you get 7 direct customers...</b>           | <b>Customers Passed Up To You</b> | <b>Commissions Passed Up To You</b> |
|---|-----------------------------------|-------------------------------------|
| Your 1 <sup>st</sup> , 4 <sup>th</sup> , 5 <sup>th</sup> , and 6 <sup>th</sup> direct customers | 12                                | \$240                               |
| Those 12 passed up customers  | 36                                | \$720                               |
| Those 36 passed up customers  | 108                               | \$2,160                             |
| Those 108 passed up customers   | 324                               | \$6,480                             |
| Those 324 passed up customers   | 972                               | \$19,440                            |
| Those 972 passed up customers   | 2,916                             | \$58,320                            |
| Those 2,916 passed up customers   | 8,748                             | \$174,960                           |
| Those 8,748 passed up customers   | 26,244                            | \$524,880                           |
| Those 26,244 passed up customers  | 78,732                            | \$1,574,640                         |
| ...and so on, and so forth  | ...                               | ...                                 |

It looks exciting, right? And then we realize this...
